Please bring any x-rays, CAT scans or other radiology so that I can get an accurate picture of your personal problems.

And wear some older shoes in case they are needed to diagnose misalignments, from their uneven wear patterns.

There is no such thing as ‘poor posture’, only skeletal misalignment, so you will walk straighter and taller after treatment.

It may take several treatments to resolve your problems, particularly if they are chronic, and you have been in trouble for a long time.

More than 95% of patients respond positively to Ostealign. You will know how well it will work for you in the first couple of treatments.

You have nothing to lose but a life of pain and debility.

Featured on Today Tonight in 2011, the entire NARESS method, including Ostealign, will shortly be available to all who need it globally.

Visit the Ostealign Group on Facebook for the latest news.

Look out for the NARESS Unveiled series of e-books available shortly on the web site.

This will include teeth, vision, internal organs, muscles, pets and much more.

More copies of this brochure and further information about the NARESS technology and Ostealign may be downloaded from the website at

Please feel free to pass this brochure on if you are satisfied with the clinic services.
When the skeleton is in perfect balance, it operates without stress or pain.

Although I am a purely a skeletal/physical therapist, you may experience relief from other problems - but only if they were caused by nerve entrapment.

In most cases, ‘maintenance’ is not required.

You will know when you need to come and see me again.

Ostealign is a purely physiological reaction that occurs within your body, as the result of touching neurologically sensitive areas.

Your muscles then react to create the correct alignment, as determined by your own internal system.

Come and consult the person who knows more about this technology than anyone alive today.

Originally Neuroskeletal Dynamics and then mis-named for a short time as NeuroKinetics, my skeletal technology is now known internationally as Ostealign.

This latest technology is now also available as an Ostealign App for iPad and iPhone, and also shortly as a series of e-books.

NARESS - Neurological and Anatomical Response to External Skin Stimulation covers the entire human scope, internal organs, muscular and skeletal.

Developed from 30 continuous years of research and clinical trials, Ostealign techniques are having major success with:-

- Back Pain
- Arthritis
- Sciatica
- Scoliosis
- Whiplash
- Joint Injuries
- Intervertebral Disc Damage
- Osteoporosis
- Sports Injuries
- Accident Trauma
- Spinal Cord Injuries
- Degeneration

IT IS

- non-invasive
- non-manipulative
- painless
- and permanent

Your therapist - nominated for Australian of the Year for the fourth time.

no fish slapping
no crystal waving
no chanting
no ‘energy channelling’
no ‘guns’, ‘clickers’ or mechanical devices
nothing mysterious

In fact, none of that “HOO-HA” at all. Just a ‘hands-on’ technique that is pure and simple physiology, allowing the body to painlessly re-align itself without application of any external force.

And then a warm bath, or hot shower afterwards - to avoid too much muscle stiffness the next day.
